There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

By FESTUS J. WADE,

Director for Missouri War Savings
Committee.
Explanatory statement relative to
War Savings Thrift Stamp and War
Savings Certificates:

A campaign for the sale of \$2,000,000 of War Savings Stamps and War Savings Certificates was inaugurated in the early part of December.

The primary purpose of this new issue of government securities is to create thrift among the people of the nation and place within the means of every man, woman and child of the country an opportunity to buy a government security in units as low as 25 cents. Therefore, arrangements are rapidly being made to place on sale at all postoffices, all banks and trust companies, all railroad offices and all business houses, wholesale and retail, two kinds of securities:

(a) The Thrift Stamps are sold for 25 cents each, and when the purchaser has accumulated 16 of these stamps he may go to his bank or trust company, or to a postoffice, and by paying 12 cents and turning in 4 in stamps he can secure a \$5 Government War Savings Certificate Stamp, due five years after Jan. 1, 1918. The difference between the purchase price of the Certificate Stamp, 1 c., \$4.12, and \$5, the face of the Certificate Stamp, is interest at the rate of 4 per cent per annum compounded quarterly.

(b) Those who wish to purchase the Certificate Stamp up to \$1,000 may purchase same by paying \$4.12 for each of the Certificate Stamps purchased. The difference between the purchase price, \$4.12, and \$5, the face value of the Certificate Stamp, represents interest at the rate of 4 per cent per annum for a period of five years and compounded quarterly.

The purchase price of Thrift Stamps remains the same at all times, namely 25 cents.

25 cents. The purchase price of War Savings Certificate Stamps, being \$4.12 in the months of December, 1917, and January, 1918, increases at the rate of 1 cent per month thereafter.

In order to absolutely secure the widest distribution of these Certificate Stamps, it is against the law for any one person to own more than \$1,000 of them.

In order to avoid inflation in the currency of the country, these stamps are made non-negotiable, payable to the purchaser and not to the bearer, and, therefore, are not transferable. Should a purchaser wish to cash them in before they mature, they will be redeemed at any postoffice, and interest will be returned at the rate of approximately 3 per cent per annum, but they cannot be sold from hand to hand.

It is the hope and expectation of the government that these notes will be distributed among at least 25,000,000 inhabitants of the United States of America.

The underlying principle behind this whole issue is that \$2,000,000,000 of the war loan will be held by at least 25,000,000 people of the nation who have really saved that amount within the war period, as it is distinctly a thrift and saving issue and is known as the Thrift Stamps and War Savings Certificate Stamps. It has for its additional object the inducement of those who carry pennies, nickels, dimes, quarters and dollars in cupboards, safe deposit boxes or other places to turn in the ready currency or coin to the government in order that it might be circulated throughout the nation and thus strengthen to that extent the financial power of the nation.

It will be seen, therefore, that, aside from the raising of a war fund, each 25 cents or \$4.12 contributed to this distinctly thrift war saving plan will leave with the people of the nation these stamps, which will be redeemed at the end of five years, thus avoiding at that extent any inflation and also putting the people of the nation, irrespective of their station in life, in a position of owning \$2,000,000,000 of the war loan.

A better security was never issued, nor can be issued. It is the mortgage of all the United States and its possessions. It is guaranteed by the loyalty, fealty and confidence of 100,000,000 people of the nation, and, therefore, it is expected that it will receive the unanimous endorsement of the men, women and children of the nation.

These War Savings Certificate Stamps are better than gold, silver or paper money, for the simple reason that \$4.12 in gold, silver or paper at

the end of five years is worth only \$4.12, whereas if you invest each \$4.12 you own in these War Savings Certificate Stamps they will be worth \$5 in gold at the end of five years.

BRITISH PRISONERS STARVED

Men in German Camp Entirely Dependent on Food Sent From England.

Rotterdam.—According to released Englishmen who have arrived from the camp for British civilians at Ruhleben, Germany, no food had been provided for them by the Germans in the last three months. They were entirely dependent on the parcels sent out from Great Britain.

Most of the prisoners at Ruhleben are suffering from stomach troubles owing to the fact that they have principally had to live on canned food. As a result of the monotonous character of the life there all inmates are mentally abnormal, any those who have been released.

WHEATLESS BISCUITS.

Parched cornmeal is the feature of these excellent wheatless biscuits. First, the cornmeal—one-half a cup—is put in a shallow pan placed in the oven and stirred frequently until it is a delicate brown. The other ingredients are a teaspoon of salt, a cup of peanut butter and one and a half cups of water. Mix the peanut butter, water and salt and heat. While this mixture is hot stir in the meal, which should also be hot. Beat thoroughly. The dough should be of such consistency that it can be dropped from a spoon. Bake in small cakes in an ungreased pan. This makes 16 biscuits, each of which contains one-sixth of an ounce of protein.

DELICIOUS CORN MUFFINS.

Here's an old fashioned recipe for corn muffins that has recently been revived and used with unusual success in several of the larger New York hotels: To make three and a half dozen muffins take one quart milk, six ounces butter substitute, twelve ounces of light syrup or honey, four eggs, pinch of salt, two ounces baking powder, one and a half pounds cornmeal and one and a half pounds rye flour. The butter and syrup should be thoroughly mixed; then add the eggs gradually. Pour in the milk and add the rye flour mixed with cornmeal and baking powder.
